

Candidate Name: Motion Group — Ref MG-1

Candidate Position: Quantity Surveyor

Expected Salary: £60-70k

Location: London

Education, Qualifications & Training:

- MSc Construction Project Management – Glasgow Caledonian University, UK (Sep 2022 – Jan 2024)
- BEng Civil Engineering – Sri Venkateswara College of Engineering, India (Aug 2011 – Nov 2015)

Personal Profile:

An experienced Quantity Surveyor and Civil Engineer with over 7 years of pre-contract and post-contract expertise across large-scale construction and renewable energy projects. Demonstrates a strong track record in cost estimation, budget control, variation and claims management, and NEC/FIDIC contract administration. Proficient in managing tendering processes, subcontractor agreements, CVR reporting, and value engineering to optimise project outcomes. Skilled in preparing cost plans, handling payment applications, and administering final accounts in alignment with client requirements and financial objectives.

Professional Experience:

Quantity Surveyor Dec 2024 – Present

Ample Consulting

- Administered NEC/FIDIC-based contracts ensuring compliance with contractual terms and conditions across multiple BESS and solar projects.
- Projects include: Pitkevy Farm 49.9MW/99.8MWh BESS (£4.5m); Cathkin 50MW/100MWh BESS (£6.2m); WindyHill BESS Phase 1 200MW (LOI £6.7m, project value £41m); Bockingfold Solar Farm 66MWp (£4.8m).
- Managed applications for payment, variations, subcontractor agreements, and final accounts to ensure financial alignment with project objectives.
- Managed compensation events (CE), early warnings (EW), and change control notifications (CCN), ensuring compliance with contract terms and effective risk mitigation.

- Monitored, forecasted, and reported project costs ensuring alignment with budget.
- Managed the Cost Value Reconciliation (CVR) process to ensure accurate tracking of project costs, revenue, forecasts, and profitability throughout all construction stages.
- Assisted Project Managers with commercial reporting and budget forecasting.
- Maintained documentation of all payment certifications, change orders, compensation events, and project records.
- Prepared subcontract tender packages, compared subcontract quotations, and managed subcontract agreements.
- Approved purchase requests, purchase orders, and invoices via Sage portal for subcontractors and vendors.

Quantity Surveyor Jun 2020 - Aug 2022

KP Management and Project Consultant

- Worked on a multi-span PEB structure project including FM2 flooring, external developments, façade (heavyweight and curtain walls), external cladding, and fitout works (value £5.1m).
- Prepared applications for payment, coordinated with client for review, approval, and issuance of payment certificates.
- Prepared quotations for compensation events and drafted early warnings.
- Managed the CVR process to ensure accurate tracking of project costs, revenue, forecasts, and profitability throughout all construction stages.
- Prepared monthly cost plans and highlighted deviations against budget.
- Managed and certified subcontractor payment applications and final accounts.
- Prepared comparison statements and negotiated with subcontractors and suppliers for purchase orders and subcontract work agreements.

Assistant Quantity Surveyor Sep 2018 - May 2020

Colliers International

- Worked on a high-rise composite steel structure project including slipform core walls, STP, underground sump, retaining wall waterproofing, façade glazing, finishing works, and waterproofing (value £56m).

For more information, please contact Alistair Gent on 07983 719509 or alistair.gent@motiongrouppltd.co.uk

- Prepared detailed estimates and proposals for new project opportunities, ensuring alignment with client expectations and company standards.
- Managed cost estimation, budget preparation, and monitoring of project expenses to enhance project efficiency.
- Prepared and presented monthly project cost reports incorporating detailed benchmarking data to support project financial health.
- Measured and valued work done and ensured all contract documentation was kept up to date.
- Managed and assessed variations and provided accurate costing on additional works.
- Assisted project managers in implementing comprehensive change control processes to ensure alignment with client requirements and budget constraints.
- Assisted project managers during value engineering, contributing to the identification of cost-saving opportunities.
- Prepared preliminary risk assessments and procurement reports, aiding in identifying potential project risks and assisting in implementing mitigation strategies.
- Liaised with subcontractors and suppliers to obtain competitive pricing.

Civil Engineer Nov 2016 - Aug 2018

Colliers International

- Worked on a project involving rock anchoring, waterproofing with HDPE membrane, PT slabs, and retrofitting works.
- Developed Work Breakdown Structures for improved project transparency, control, and execution efficiency.
- Supervised rock anchoring, waterproofing, and column strengthening activities, ensuring 100% compliance with quality standards.
- Ensured adherence to NEC contract specifications, monitoring contractor programmes for accurate scheduling and execution.
- Raised and managed Requests for Information (RFIs) to architects and structural consultants, resolving 80% of project queries ahead of schedule.
- Prepared and validated Bills of Quantities (BOQs) for reinforcement steel, certifying 100% contractor billing accuracy.

For more information, please contact Alistair Gent on 07983 719509 or alistair.gent@motiongrouppltd.co.uk

- Maintained critical project documentation including checklists, change orders, and risk registers, improving data accessibility.
- Coordinated with MEP teams to align civil works ahead of final inspections, preventing rework and reducing delays.
- Led the construction of an 850KV STP and underground sump, ensuring operational readiness and compliance.
